

Center for Human Genomics and Precision Medicine

UNIVERSITY OF WISCONSIN
SCHOOL OF MEDICINE AND PUBLIC HEALTH

**Invites You to Attend Our
Virtual Seminar Series**

The early origins and patterns of somatic mutations in childhood cancer

A lecture with:

Adam Shlien

PhD

**Dr. Adam Shlien is an Assistant Professor of
Laboratory Medicine and Pathobiology at the
University of Toronto.**

**His research uses the tools of modern sequence-based
genomics to discover the mutations that are present
in the genomes of pediatric cancer patients, and to
understand how these mutations alter the somatic
transcriptome. He has a strong interest in sarcoma
biology and is directly involved with the introduction
of cutting-edge genomics, such as whole genome
sequencing, into clinical practice.**

**MONDAY
NOVEMBER 16TH**

12:00PM - 1:00 PM

**ONLINE WITH
WEBEX**
